

COMMODORES REPORT: AGM DEC 2009

Anton said that although generally it had been a very hard year, overall the club had done well and continued to grow as we have quite a few new members, still lots are outstanding with subscriptions but in total +/- 350 members.

Anton said our anglers had done well this year and he is very proud of the anglers and his committee. Participation in Inter-clubs and results have been very good – well done. PJ Botha received national colours for the Tuna nationals and Anton hoped that more of our guys nominate and get their Inter-Provincial colours next year.

The Bonanza was a great success, especially in difficult times but we did better than any of the other big competitions, and thanks to the Committee for all their hard work. Great to see a youngster take the boat home.

LEASE: Regarding the lease on the Club property, Anton said the Club have put in a motivational report to Council and feedback sounds positive.

BASE: Anton said there should be some big changes in the set-up at the Base which is now over-run with Charters. There will be new by-laws and parking system. Hopefully if Council enforce it things will improve considerable but if not Anton will call upon all our members to make a stand and take up parking spaces at 3am.

SAFETY: Safety has been excellent and Shelly Beach Base is has the best record on the coast.

Anton finished by saying “On behalf of the Committee and myself, thank you to all the members who have been involved; with sponsorship, with hands-on help and whatever was required throughout the year for events.”

Anton then thanked his committee for all their help and support, especially to Brenda for all her hard work.
